

FAMILY MEDICINE (FAMD)

Course descriptions in school catalogs and the Course Search (<https://catalog.uth.edu/course-search/>) are correct at the time of publication. See myUTH (<https://uthidp.uth.edu/nidp/saml2/sso/?id=Campus-Affiliate-LOA2-DUO&sid=0&option=credential&sid=0>) for more recent course information and to register for courses.

FAMD 3001 Family Medicine

The goal of this clerkship is to introduce students to the practice of Family Medicine by focusing on the clinical approach to the ambulatory primary care patient. Learning activities are planned to introduce the knowledge, attitudes, and skills that all physicians need when evaluating such a patient. Fail Thru Honors(MED)

FAMD 4000 Required Ambulatory Medicine

The required fourth year ambulatory rotation is an outpatient clinic based selective, allowing students to choose a particular area of focus consistent with their career trajectory. Students will care for patients coming in for preventative health checkups, as well as those with minor acute illnesses. Students also revisit the principles of evidence based medicine, and complete a critical review of the literature for a clinical question of their choosing. Fail Thru Honors(MED)
