

CERTIFICATE IN INJURY AND VIOLENCE PREVENTION

15 semester credit hours

Available to degree-seeking and non-degree-seeking students.*

Unintentional injuries, suicide, and homicide account for the top three causes of death for individuals aged 15 to 24. This certificate will build awareness of the importance of injury and violence prevention and enhance participants' capacity to plan, implement, evaluate, and sustain practical, evidence-based approaches to injury and violence prevention.
