

MINORS

Minor Areas of Study

UTHealth Houston School of Public Health offers a variety of minors designed to complement and enhance a student's major field of study. These minors provide students with the opportunity to explore other disciplines, gain specialized knowledge, and broaden their academic experience.

Available Programs:

The School of Public Health offers the following minor areas of study:

- Behavioral Sciences (<https://catalog.uth.edu/public-health/programs/minors/behavioral-sciences/>)
